PTA Veterinarian Practice List 2016

The following list of Veterinarian RCVS Accredited Practices has been compiled based on: a) postcodes nearest to PTA venues, and: b) entries taken from the RCVS website database. It is procedure that all Accredited Practices provide an emergency telephone number. All entries are listed as either a Small Animal General Practice or Small Animal Veterinary Hospital.

All Accredited Practices abide by The RCVS Practice Standards Scheme Manual (PSS)

Excerpt. Section 3. OUT-OF-HOURS PATIENT CARE

3.1 The practice must take steps to provide 24-hour emergency cover for the care of animals of those species treated by the practice during normal working hours.

A veterinary surgeon must, if in practice, take steps to provide 24-hour emergency cover for those species treated by the practice during normal working hours, including attending away from the practice premises on the rare occasions when in the veterinary surgeon's professional judgement it is deemed necessary.

In the event of an emergency you should first check if any vets are present at the event.
